

Chromatic Shell Surfaces

NO JOINTS. NO PAINT. NO COMPROMISE

Just color, texture, and light — in perfect harmony

Chromatic Shell Surfaces

NO JOINTS. NO PAINT. NO COMPROMISE

Just color, texture, and light – in perfect harmony

Inspired by nature’s seashells and powered by innovation, Chromatic Shell Surfaces redefines what wall coverings can be. Seamless, luminous, and sustainably made from natural seashell powder, this surface breathes beauty into any space – with zero PVC, minimal emissions, and no limits on imagination.

Designed for modern hospitality, wellness, and high-traffic interiors, it resists moisture, mold, stains, and time itself.

KEY ADVANTAGES

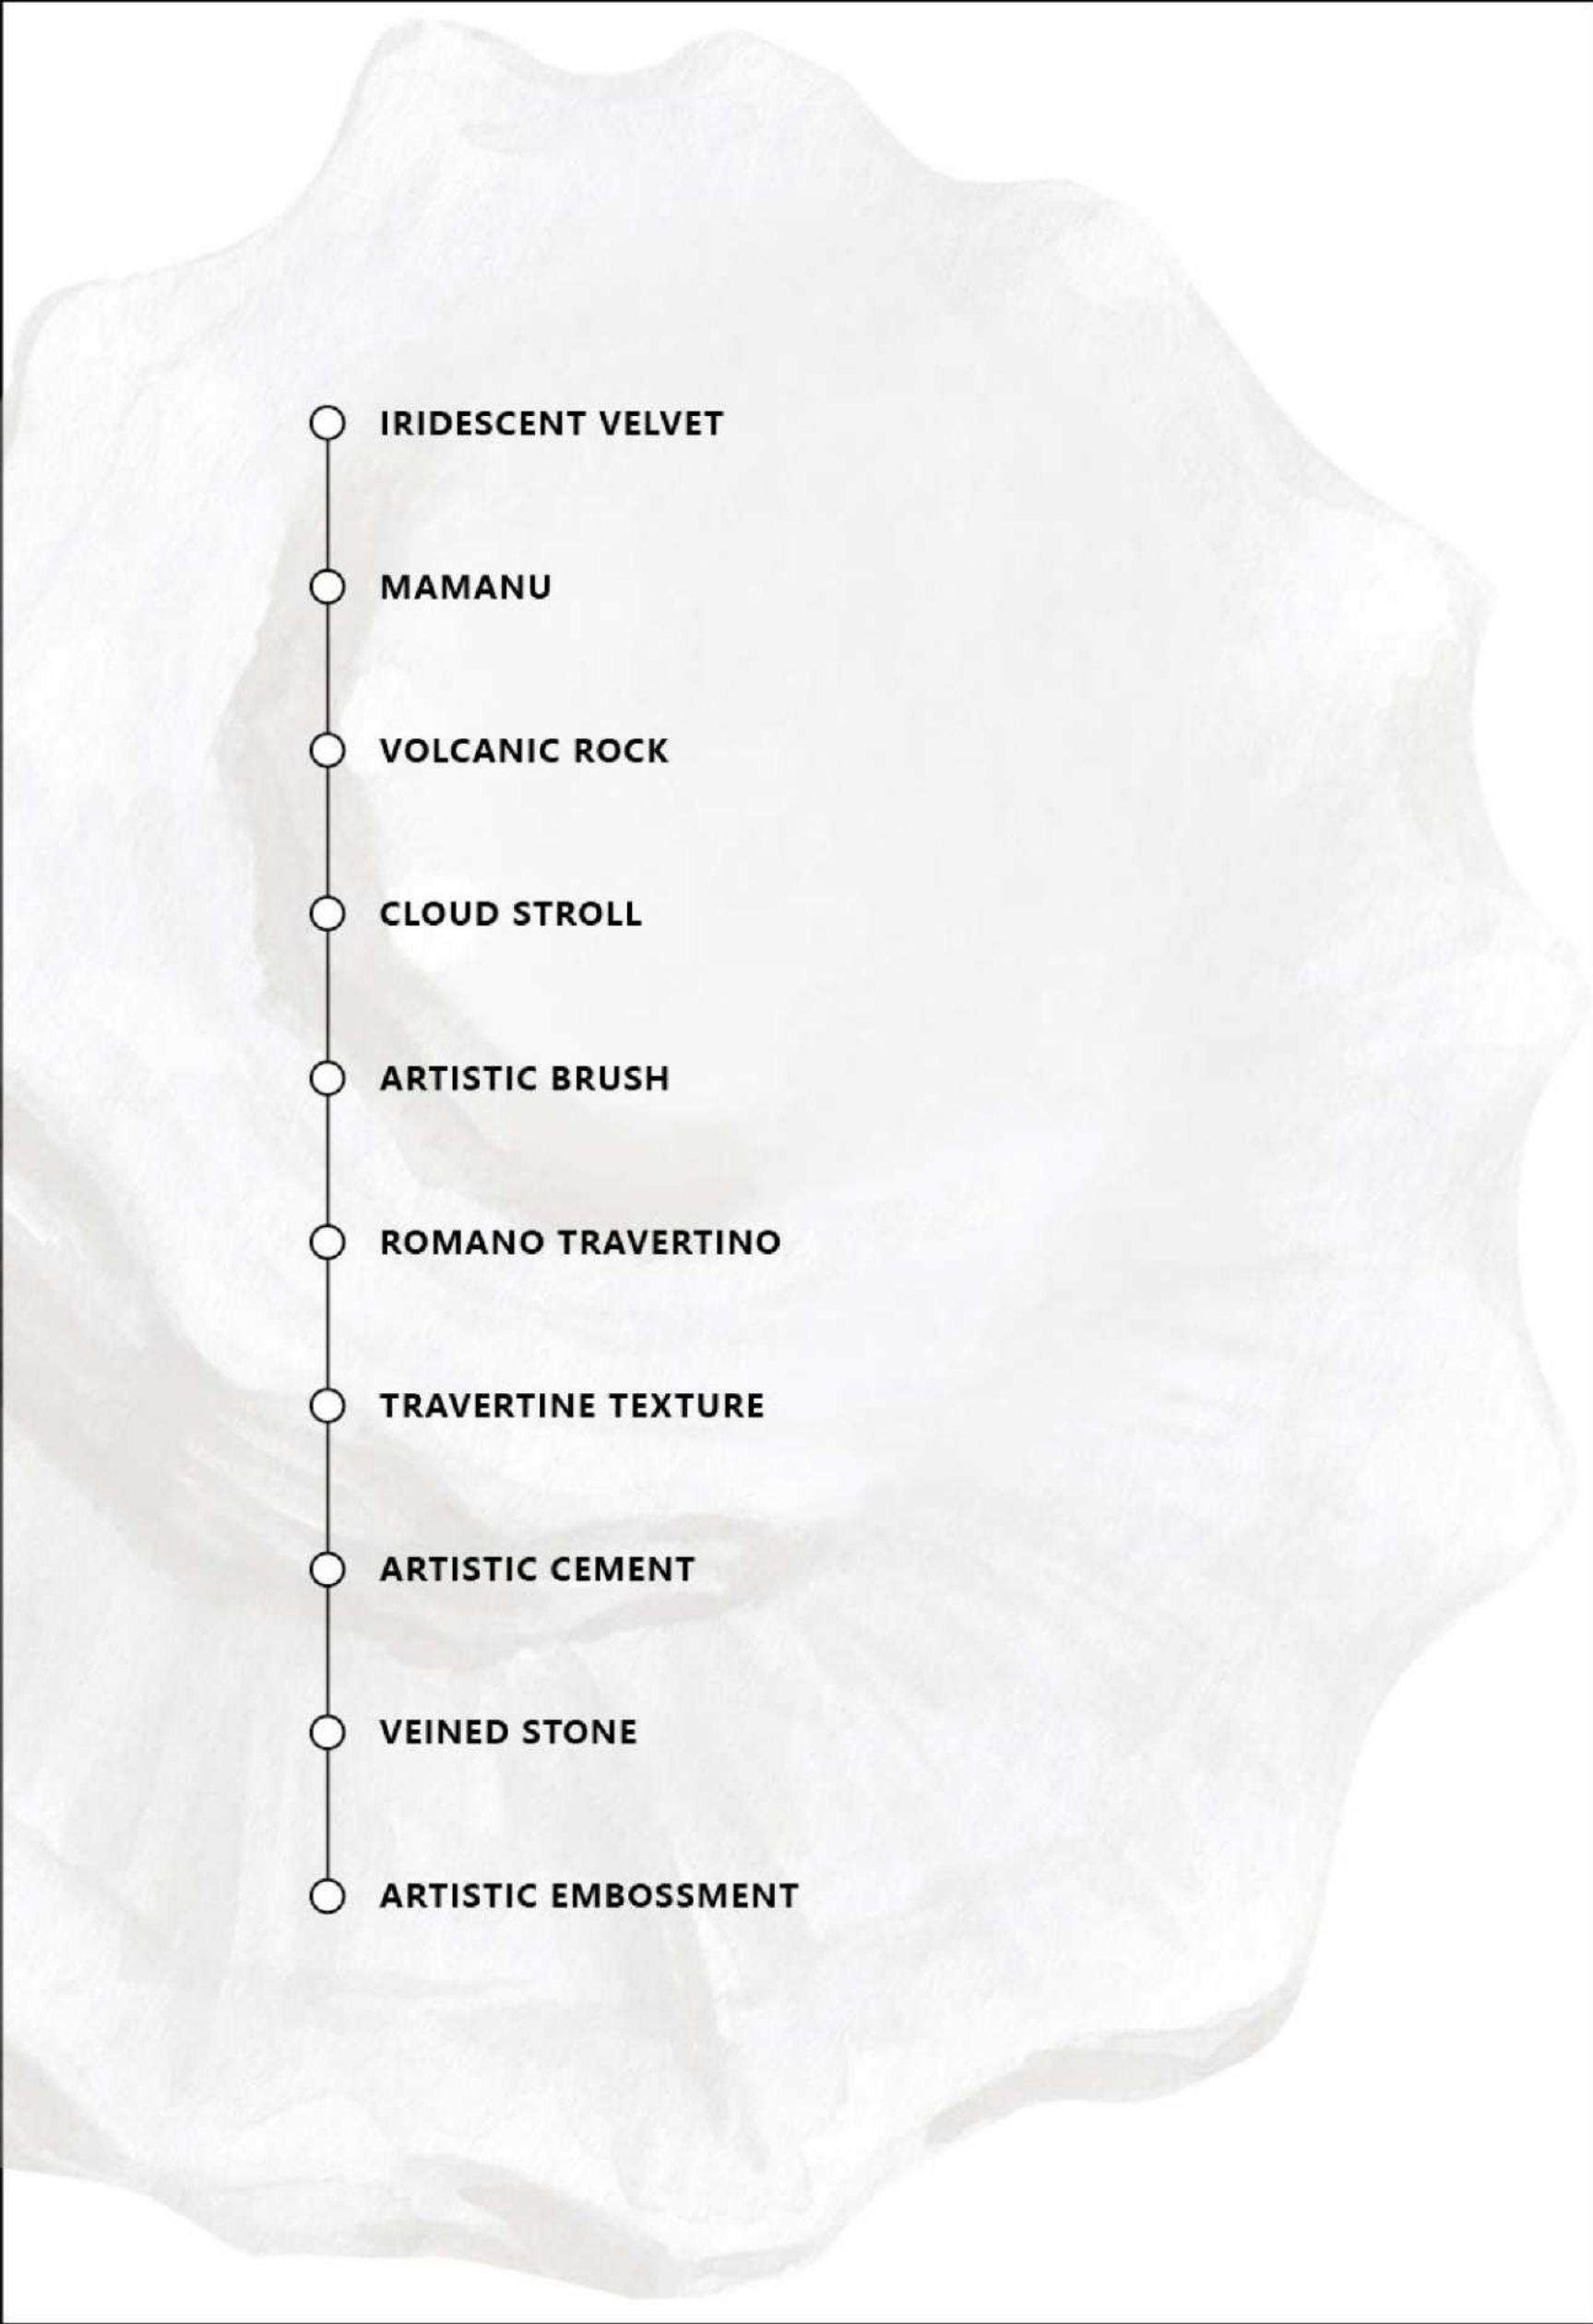

- Seamless, jointless finish | Made from natural seashell powder | PVC-free and low VOC
- Mold, moisture, and bacteria resistant | Fire retardant (B1 Grade)
- Fast installation-no painting require

Chromatic Shell Surfaces

Introducing Chromatic Shell Surfaces, a revolutionary wall solution that transcends traditional wallpaper, transforming spaces into living works of art. Inspired by nature's seashells, this distinctive material offers profound colors and textures that come alive with light, creating truly unique and personalized interiors. It's a smart, artistic alternative to hand painting, delivering a one-of-a-kind experience without the usual complexities or high costs.

Key Advantages:

Seamless Artistic Finish: The 2.8-meter width ensures a completely seamless, jointless application.

Superior Environmental & Health Profile: Crafted from natural seashell powder and PVC-free layers.

Exceptional Durability & Low Maintenance: Ensures lasting beauty and minimal upkeep.

Advanced Moisture & Mold Resistance: Its naturally breathable structure provides inherent resistance to moisture, dampness, and mold.

Fire Retardant: Meets ASTM E-84 & European flammability standards.

Rapid & Efficient Transformation: Eliminates the need for traditional painting, allowing for direct, quick application.
